Abstract Info	Abstract
Article Type: Research Article  Received: 2024.04.09 Accepted: 2024.06.20	The moral system of the Holy Quran, like other systems, has three elements of goals, foundations and principles, each of these three elements has an effect on spiritual health. In this case, this research is trying to answer this basic question with descriptive-analytical method, what is the effect of moral system of Quran on spiritual health? The findings of the research show that the moral system of the Qur'an has three roles, cognitive, emotional, and behavioral, and has an effect on spiritual health. Beliefs and convictions, self-knowledge, mention of human capacities and shortcomings and awareness of them from epistemological roles; Nature, love and kindness, introduction of patterns, and seeking perfection, from emotional roles; And dressing up with moral virtues and dressing up from moral vices, reliance, repentance, recourse and adjustment of instincts are among the behavioral roles of the Qur'an's moral system, each of which has a fundamental role in spiritual health.
Keywords	Moral system of Quran, spiritual health, epistemic roles, emotional roles, behavioral roles.
